

BLOB DUTY

The following rules are designed to ensure your safety while participating in the “Blob” activity:

1. The Blob program area is open only when lifeguards are present and have announced that the Blob activity is open.
2. Blobbers must be experienced swimmers, passed the swim test, wear a life vest, and have it securely fastened.
3. Only two persons are to be on the Blob at one time - the Blobber and the jumper.
4. Blobber and jumper must weigh within 30-50 pounds of each other to jump off top of tower.
5. One adult must be stationed at the tower to supervise all jumping.
6. Blobbers must belly flop onto the Blob.
7. Blobber must be on the lake end of the Blob, sitting down-leaning slightly forward, with their feet toward the lake end of the Blob and their back toward the tower. All blobbers must have mouths closed before blobbing.
8. The supervisor will ask lifeguards if ready? The lifeguard will respond by lifting their arm straight up in the air. The supervisor will then say, “3-2-1” and the jumper will jump, bottom first, on the blob.
9. Jumpers must hit bottom first on the 3rd color from the end of the blob.
10. New jumpers must wait for the blobber to be by the dock before positioning themselves to jump.

HAVE FUN!!!
